IN THE HOME**

**GAINING
COOPERATION
IN THE HOME**

Speaker
Chad Hayenga

Most families are in survival mode much of the time. It takes prayer, thought and commitment to know where your family is headed and how to guide it effectively.

Parents will learn to develop a plan to make family life purposeful and even enjoyable by guiding their family into a model of respectful and productive family meeting times.

Family meetings can be great vehicles for everything from chore plans to platforms for spiritual teaching and growth.
